

## Here to Diagnose and Care for Your Patients' Food Allergies

Assessment, prevention, treatment and  
long-term care for patients of all ages.

### Comprehensive Diagnosis

- Clinical history
- Skin testing
- Blood testing
- Food challenges

### Treatment

- Oral Immunotherapy (OIT) for children as young as 12 months
- Desensitization to multiple foods

### Prevention

- Early food introduction for infants
- Based on current AAP guidelines

## What Sets Us Apart

At Latitude, we provide care and treatment exclusively for food allergies.

- Personalized treatment for food allergy patients, including complex cases
- We offer quick access to food challenges and testing
- Food allergies can change over time, we monitor food allergy status long term and make decisions based on the most up-to-date treatment and care options — particularly important for adolescents
- Clinical team trained in food allergy treatment and care
- Clinical feedback from our team about your patients' care
- Patient Care Coordinators with personal experience with food allergies to support families
- We are in-network with a variety of insurance carriers
- Multiple SF Bay Area locations — Redwood City, San Francisco, San Ramon, and Los Gatos/San Jose
- We are a member of UCSF Benioff Children's Physicians

## Addressing the Growing Needs of Food Allergic Patients

- 1 in 13 children have a food allergy (Gupta et al., Pediatrics 2018)
- Numerous studies detail negative effect of food allergy on health-related quality of life (HR-QOL) (Muraro et al., Allergy 2014)
- High rates of anxiety and depression in food allergic children (Flokstra-de Blok et al., Allergy 2010)

## Clinical Team

- Zahida "Rani" Maskatia, MD, FAAAAI — Board-Certified Allergist & Immunologist
- June Zhang, MD, FAAAAI — Board-Certified Allergist & Immunologist
- Tina L.R. Dominguez, PA-C, MMS — Certified Physician Assistant
- Allison Anderson, CPNP-PC — Certified Pediatric Nurse Practitioner

# Meet the Latitude Food Allergy Care Clinical Team

---

**Dr. Zahida "Rani" Maskatia is board certified in pediatric and adult allergy and immunology.** She graduated with the highest distinction from Miami University and received her MD from the University of Michigan Medical School. Dr. Maskatia completed an internal medicine residency and then a dual fellowship in pediatric and adult allergy/immunology and rheumatology at Baylor College of Medicine. During her time at Baylor, she completed research in the fields of food allergy and asthma, and published in several peer-reviewed journals. She then joined the faculty of Baylor College of Medicine. Dr. Maskatia is committed to changing the lives of food-allergic people.

**Dr. June Zhang is board certified in pediatric and adult allergy and immunology.** She graduated with honors from the University of Washington in Seattle and received her MD from the Medical College of Wisconsin in Milwaukee. Dr. Zhang completed her pediatrics residency at Children's Hospital Oakland and her allergy and immunology fellowship at Children's Hospital of Pittsburgh and University of Pittsburgh Medical Center. She served as adjunct faculty at the University of Texas Southwestern Medical Center. Dr. Zhang strives to understand the root cause of illness, focusing on personalized care and improvement of patients' long term health.

**Tina L.R. Dominguez is a certified physician assistant.** She received her Physician Assistant Certification through Stanford School of Medicine. Tina also holds a Master's of Medical Science from St. Francis University. As one of the founding clinicians of the Sean N. Parker Center for Allergy & Asthma Research at Stanford, for nearly a decade she has worked closely with thousands of patients undergoing oral immunotherapy (OIT), trained allergists on OIT protocols, and conducted several OIT clinical trials. Prior to joining Latitude, she served as the director of an OIT program at a large private allergy practice, and as a consultant for Aimmune Therapeutics developing training protocols and education material for Palforzia.

**Allison Anderson is a certified pediatric nurse practitioner.** She completed her master's degree in nursing at UCSF. Allison began her career as a school nurse. She pursued a specialty clinical rotation in the Zuckerberg San Francisco General Hospital's Pediatric Asthma and Allergy Clinic. Prior to joining Latitude Food Allergy Care, Allison worked at an asthma and allergy clinic in San Francisco and Marin. Allison loves working with families to develop individualized plans to manage their chronic conditions so that they can enjoy full childhood experiences.
